## Quartzforms

The group was born in 1981, thanks to the passion and artisan expertise of its founder, Domenico Luigi Scapin. Quartz agglomerate arrived on the market in the early nineties: an utterly innovative material with a natural appearance and unparalleled resistance, guaranteeing exceptional performance. We immediately recognised its potential, not least in interior design, and undertook to process and market the new material.

In 2010 we launched Quartzforms S.p.A. and acquired a Bretonstone® production facility in Germany, renowned for its excellent compliance with the most stringent safety and environmental standards. Today we offer the public, designers and architects the very best engineered stone, the result of our dedication, creativity and experience.

Because the future lies in our roots.

*Die Gruppe wurde 1981 geboren dank der  
Handwerkskunst und Leidenschaft ihres Gründers  
Domenico Luigi Scapin. Quarzkomposit kam  
Anfang der neunziger Jahre auf den Markt. Es  
handelt sich um ein absolut innovatives Material mit  
natürlicher Ausstrahlung, das über unvergleichliche  
Beständigkeitseigenschaften verfügt und daher  
außerordentlichen Ansprüchen genügen kann. Wir  
haben das Potential, auch im Einrichtungsbereich,  
sofort erkannt und uns die Transformation und  
Vermarktung zur Aufgabe gemacht. Im Jahr 2010  
haben wir durch den Erwerb einer Bretonstone®-  
Produktionsstätte in Deutschland Quartzforms  
S.p.A. gegründet, die sich durch strikte Einhaltung  
von Umwelt- und Sicherheitsstandards auszeichnet.  
Heute bieten wir Privatkundschaft, Architekten  
und Designern den optimalen Engineered Stone,  
entstanden aus unserem Engagement, unserer  
Kreativität und unserer Erfahrung. Denn die Zukunft  
liegt in unseren Wurzeln begründet.*

*Il gruppo nasce nel 1981 grazie alle competenze  
artigianali e alla passione di Domenico Luigi Scapin,  
il fondatore. L'agglomerato di quarzo compare sul  
mercato nei primi anni novanta: è un materiale  
del tutto innovativo, di effetto naturale, dotato di  
ineguagliabili caratteristiche di resistenza e pertanto  
capace di garantire elevatissime prestazioni.  
Ne abbiamo subito intuito le potenzialità, anche  
nell'ambito dell'arredamento, e ci siamo assunti  
l'impegno di trasformarlo e commercializzarlo.  
Nel 2010 abbiamo creato Quartzforms S.p.A.  
acquisendo in Germania un impianto produttivo  
Bretonstone® contraddistinto dalla massima  
adesione ai più severi standard ecologici e di  
sicurezza.  
Oggi offriamo al pubblico, ai progettisti e ai  
designer la migliore engineered stone, nata  
dalla nostra dedizione, dalla nostra creatività  
e dalla nostra esperienza.  
Perché il futuro è nelle nostre radici.*

## the future

Travel is synonymous of exploration, knowledge and renewal.

We took an imaginary and visionary journey following the routes of the planets.

And we came back with an ambitious, stimulating idea: to turn quartz into beauty.

A unique mineral, expressive and resilient, it's the raw material that puts the shine into the surfaces of the Planet Collection by Quartzforms®.

We've interpreted it in a harmonious range of colours and embellished it with elegant veining patterns inspired by natural stone, making every surface unique, unrepeatable and alluring, for a luxury that's both everyday and extraordinary.

*Reisen ist gleichbedeutend mit Forschen, Wissen und Innovation. Wir haben uns auf eine ideale, visionäre Reise entlang der Planetenbahnen gemacht und kamen mit einer ambitiösen und anregenden Idee zurück: Quarz in Schönheit zu verwandeln. Ein einzigartiges, ausdrucksstarkes und kraftvolles Mineral, der Rohstoff, der die Platten der Kollektion Planet by Quartzforms® mit Licht erfüllt! Wir haben ein harmonisches Farbspektrum geschaffen und es mit eleganten an Naturstein inspirierten Aderungen veredelt wodurch jede Oberfläche ein einzigartiges, unwiederholbares und faszinierendes Flair gewinnt, für den außergewöhnlichen aber gleichzeitig alltäglichen Luxus.*

*Viaggiare è sinonimo di ricerca, conoscenza e rinnovamento. Abbiamo compiuto un viaggio ideale e visionario inseguendo il percorso dei pianeti. Ne siamo tornati con un'idea ambiziosa e stimolante: trasformare in bellezza il quarzo. Un minerale unico, espressivo e performante, la materia prima che rende luminose le lastre della collezione Planet by Quartzforms®. Le abbiamo declinate in un'armoniosa gamma cromatica e le abbiamo arricchite con eleganti venature passanti ispirate alla pietra naturale, rendendo ogni superficie unica, irripetibile e seducente, per un lusso straordinario e quotidiano.*

## TEMPEL

the shape of infinity

The clear marble surface of the Tempel slabs is crossed by exclusive, fleeting dark lines interspersed with orange-coloured lines to create an extensive lattice pattern.

Our gaze instinctively follows them, as if they were pointing out mysterious paths.

The veining is as light as it is expressive, ideal for cladding that will enhance minimalist and contemporary-style contexts.

*Die scharf umrissene und marmorne Oberfläche unserer Platten der Reihe Tempel ist von feinen und flüchtigen dunklen Linien durchzogen, die sich mit anderen, orangefarbenen überschneiden, um eine ausgedehnte und dekorative Vernetzung zu bilden. Der Blick folgt ihnen instinktiv, so als ob sie auf mysteriöse Pfade führen würden. Eine so leichte wie ausdrucksstarke Äderung für eine Verkleidung, die geeignet ist, die Räume mit minimalistischem und zeitgemäßem Stil zur Geltung zu bringen.*

*La superficie nitida e marmorea delle lastre Tempel è solcata da rarefatte e sfuggenti linee scure che si intersecano con altre di colore aranciato, a formare un ampio e decorativo reticolo; lo sguardo le segue istintivamente, come se ci indicassero misteriosi percorsi. Una venatura tanto leggera quanto espressiva, per un rivestimento adatto a valorizzare gli ambienti di stile minimal e contemporaneo.*

## INTERSTELLAR CLOUD

the conquest of space

The spaces between stars are steeped in a light, rarefied substance, the same matter stars are made of. Our Interstellar Cloud slabs, with their almost-imperceptible veining, create a surface with crisp features, vibrant and expressive, which reflect ambient light while expanding our perception of space.

*Der Raum zwischen den Sternen ist mit einer feinen und leichten Substanz erfüllt: der Stoff aus dem die Sterne sind! Die Tafeln Interstellar Cloud, bilden mit ihrer kaum wahrnehmbaren Maserung Oberflächen mit wohldefinierten, lebendigen und ausdrucksstarken Konturen, die im Licht widerscheinen und unsere Raumwahrnehmung erweitern.*

*Le distese interstellari sono permeate di una sostanza rarefatta e leggera, la stessa che compone le stelle. Le lastre Interstellar Cloud, con la loro impercettibile venatura, creano superfici dai contorni definiti, vibranti ed espressive, che riflettono la luce ambientale ampliando la nostra percezione dello spazio.*

## NEPTUNE

the planet of wind

The allure of Neptune is its very mystery.

Distant and inaccessible, invisible to the naked eye, it appears as an opalescent bluish orb.

To Neptune we've dedicated a slab with a deep, glowing surface, criss-crossed by a network of darker veins: a rational pattern, dictated by time and nature.

*Neptuns Faszination liegt in seiner geheimnisvollen Natur. Extrem weit entfernt und unerreichbar, für das bloße Auge unsichtbar, erscheint er uns wie eine milchig blaue Sphäre. Wir haben ihm eine Tafel mit einer tiefen und leuchtenden Oberfläche gewidmet, die von einer Textur dunklerer Maserung durchzogen wird: ein rationales Design, das von Zeit und Natur bestimmt wird.*

*Il fascino di Nettuno è basato sul suo stesso mistero. Lontanissimo e irraggiungibile, invisibile a occhio nudo, appare come una sfera bluastra e opalina. Gli abbiamo dedicato una lastra dalla superficie profonda e luminosa, attraversata da una trama di venature più scure: un disegno razionale, dettato dal tempo e dalla natura.*

## HONEY GALAXY

signs from the outer space

The veining on our Honey Galaxy slabs is decidedly regular and seems to indicate a direction: an ideal horizon, concrete and resolved. It creates exquisite surfaces with a strong aesthetic impact, suitable for both contemporary and classical spaces.

A surface that adds character, enhances its settings and makes them unique.

*Die auffällig regelmäßige Maserung der Honey Galaxy-Tafeln scheint in eine Richtung zu weisen: zu einem idealen Horizont, konkret und entschlossen. Sie schafft raffinierte Oberflächen mit kraftvoller ästhetischer Wirkung, die sowohl für zeitgenössische als auch für klassischere Ambiente geeignet sind. Charakterisierende Beläge, die ihr Ambiente veredeln und es einzigartig machen.*

*Le venature delle lastre Honey Galaxy hanno una distinguibile regolarità e sembrano indicarci una direzione: un orizzonte ideale, concreto e deciso. Creano superfici raffinate, di forte impatto estetico, adatte sia agli spazi contemporanei che a quelli in stile classico. Un rivestimento caratterizzante, che valorizza e rende unici gli ambienti nei quali viene inserito.*

## VENUS

the morning star

Venus, the morning star, is the only planet visible by day, perhaps because of her secret vanity. She's known as the goddess of beauty and love; her symbol is a hand holding a mirror. Our Venus slab has subtle veining extended over its entire surface, expressing depth, solidity and brilliance.

*Venus, der Morgenstern, ist der einzige Planet, der auch tagsüber sichtbar ist, vielleicht aufgrund einer heimlichen Eitelkeit. Sie trägt den Namen der Göttin der Schönheit und Liebe: Ihr Symbol ist eine Hand, die einen Spiegel hält. Die Venus-Tafel mit ihrer zarten über die gesamte Oberfläche reichenden Maserung besticht durch Tiefe, Festigkeit und Glanz.*

*Venere, la stella del mattino, è l'unico pianeta che si rende visibile di giorno, forse per una sua segreta vanità. Porta il nome della Dea della bellezza e dell'amore: il suo simbolo è una mano che regge uno specchio. La lastra Venus, dalle sottili venature capillarmente diffuse sulla sua intera superficie, esprime profondità, solidità e lucentezza.*

*Planet Venus: kitchen island,  
top and table top.*

## MERCURY

the speedy planet

Small in size, close to the sun, elusive and mysterious, Mercury inspires a rich and complex symbology. It represents knowledge, clarity and spirit.

Mercury is all this, and the slab that bears its name is reminiscent of its appearance: striking, concrete and bold, distinguished by a textural combination that alternates fine veining in a paler shade with a slightly blurred mottling effect.

*Klein, nah an der Sonne, schwer fassbar und mysteriös, Inspirator einer reichen und komplexen Symbolik: Symbol für Wissen, Klarheit und Geist. Merkur ist all dies, und die Tafel, die seinen Namen trägt, erinnert an diese Aspekte: eine suggestive, konkrete und starke Oberfläche, in der feine helle Adern eine Materie voller in Auflösung begriffener zarter Punkte durchkreuzen.*

*Piccolo, vicino al sole, sfuggente e misterioso, ispiratore di una simbologia ricca e complessa, emblema di conoscenza, lucidità e spirito. Mercurio è tutto questo, e la lastra che porta il suo nome ne evoca l'aspetto: una superficie suggestiva, concreta e forte, distinta da un impasto materico che alterna sottili venature più chiare a una leggera maculatura in dissolvenza.*

*Planet Mercury: vanity top,  
cabinet doors and floor.*

# SATURN

astral meditation

Saturn and its rings, whose origins are as yet unknown, have always intrigued the collective imagination. The planet symbolises contemplation; it's vast and unreadable.

Our Saturn slab is an interpretation of these qualities: the fine texture of transverse veining makes the surface homogeneous and harmonious; the warm, natural colouring conveys calm and serenity.

*Saturn und seine Ringe, deren Ursprung noch unbekannt ist, haben seit jeher unsere Vorstellungskraft inspiriert. Der Planet ist Symbol der Kontemplation, immens und unergründlich. Die Saturn-Tafel ist eine Interpretation dieser Eigenschaften: Die feine Textur aus durchlaufenden Adern macht die Oberfläche homogen und harmonisch. Die warme und natürliche Farbe verbreitet Ruhe und Gelassenheit.*

*Saturno e i suoi anelli, la cui origine è tuttora sconosciuta, da sempre ispirano l'immaginario collettivo. Pianeta simbolo della contemplazione, è immenso e indecifrabile. La lastra Saturn è un'interpretazione di questi requisiti: la fine texture di venature passanti rende la superficie omogenea e armoniosa; la cromia calda e naturale diffonde quiete e serenità.*

*Planet Saturn: vanity top, floor  
and wall shower.  
Planet Halley: left wall and shelf.*

## MARS

a symphony of power and elegance

Mars is symbolically linked to strength, desire and determination.

It's marked by a dense network of deep furrows, evidence of ancient geological events.

This inspired a slab with a deep, compact hue, whose veining makes a striking, magnetic network. A surface that evokes the energy expressed by the action of natural elements.

*Mars ist symbolisch mit Stärke, Verlangen und Entschlossenheit verbunden. Seine Oberfläche ist mit einem dichten Netzwerk tiefer Einschnitte überzogen, die Zeugnisse uralter geologischer Ereignisse sind. All dies war die Inspiration für eine Tafel mit einem tiefen und kompakten Farbton, mit Strukturen die ein suggestives und magnetisches Gitterwerk bilden. Eine Oberfläche, die die Energien der Naturelemente heraufbeschwört.*

*Marte è simbolicamente associato alla forza, al desiderio e alla determinazione. È attraversato da un fitto intreccio di profonde solcature, testimonianza di antichi eventi geologici. Tutto questo ha ispirato una lastra dal tono cromatico profondo e compatto, le cui venature compongono un reticolo suggestivo e magnetico. Una superficie che evoca l'energia espressa dall'azione degli elementi naturali.*

## JUPITER

the planet of luck

Loyalty, authority, wisdom. But also growth, renewal and transformation.

The planet named after the greatest god in classical mythology is associated with universal, positive ideals. With its elegant veining, immersed in the depths of an impenetrable surface, the Jupiter slab is a contemporary expression of these timeless values, and becomes the focal point of any room.

*Treue, Autorität, Weisheit, aber auch Wachstum, Erneuerung und Transformation. Der nach der Hauptgöttin der klassischen Mythologie benannte Planet ist mit universellen und positiven Idealen verbunden. Mit ihrer eleganten Maserung, die tief unter einer undurchdringlichen Oberfläche eingebettet liegt, drückt die Jupiter-Tafel diese zeitlosen Werte auf kontemporäre Weise aus und wird somit zur Attraktion jedes Ambientes.*

*Fiducia, autorità, saggezza. Ma anche crescita, rinnovamento e trasformazione. Il pianeta che prende nome dalla principale divinità della mitologia classica è associato a ideali universali e positivi.*

*Con la sua venatura elegante, immersa nella profondità di una superficie impenetrabile, la lastra Jupiter esprime in chiave contemporanea questi valori senza tempo, diventando il polo d'attrazione di ogni ambiente.*

*Planet Jupiter: table top.*

## PLUTO

the black planet

The most distant and enigmatic of the planets is a symbol of transformation and rebirth. It's also linked to the concept of truth, as a force that brings renewal.

Pluto is a slab with enormous character and decorative sophistication, with a fine texture of criss-cross veining that adds sheen to its deep, dense and concrete surface.

*Der entfernteste und rätselhafteste der Planeten ist Symbol für Transformation und Wiedergeburt. Er ist auch mit dem Konzept der Wahrheit verbunden, verstanden als Energie, die Erneuerung bringt. Pluto ist eine Tafel von großer Persönlichkeit und auf raffinierte Weise dekorativ! Sie ist durch eine feine Textur durchlaufender Adern charakterisiert, die die tiefe und dichte Materie dieser Oberfläche mit Licht füllen.*

*Il più lontano ed enigmatico dei pianeti è simbolo di trasformazione e rinascita. Viene anche associato al concetto di verità, intesa come energia che porta rinnovamento. Pluto è una lastra di grande personalità, raffinatamente decorativa, percorsa da una sottile texture di venature passanti che rendono luminosa la sua superficie profonda, densa e materica.*

## HALLEY

a glow in the dark

The luminous tail of Halley's comet periodically cuts through the abyss of sidereal space. Space that's destined to remain dark, inscrutable and absolute until the comet's next passing. The slab named after it was inspired by the wait for this event: deep black is interrupted by a veining that reflects light, astonishes and inspires awe, an unexpected sign of elegance and artifice.

*Zyklisch durchschneidet der helle Schweif des Kometen Halley die Tiefen des Weltalls. Ein Raum, der bis zu seinem nächsten Umlauf dunkel, unergründlich und absolut bleiben soll. Die Tafel, die seinen Namen erhielt, wurde durch die Erwartung dieses Ereignisses inspiriert: wie Blitze durchzucken leuchtende Adern tiefes Schwarz, überraschend und bewundernswürdig, unerwartete Zeugen von Eleganz und Kunstfertigkeit.*

*Ciclicamente, la luminosa scia della cometa di Halley incide l'abisso dello spazio siderale. Uno spazio destinato a restare buio, imperscrutabile e assoluto fino al suo passaggio successivo. La lastra che ne ha assunto il nome è stata ispirata dall'attesa di questo evento: sul nero profondo irrompe il fulmineo tracciato di una venatura che riflette la luce, sorprende e si lascia ammirare, inaspettato segno di eleganza e di artificio.*

Planet Halley: kitchen island,  
top and backsplash.
